PROFESSIONAL SUMMARY

IT graduate with hands-on experience in systems support, hardware maintenance, cloud infrastructure, and user training. Proven ability to install, configure, and maintain computer systems, troubleshoot technical issues, and support end-users in operational environments.

Strong foundation in networking, data handling, and IT security principles, with experience in both enterprise and educational settings.

PROFESSIONAL EXPERIENCE

Robotics & IT Instructor — Robokorda Africa

January 2026 – Present | Harare

- Installed, configured, and maintained Arduino-based hardware systems and computer workstations for student use.
 - Delivered structured training on **computer systems, basic networking concepts, and hardware-software integration.**
 - Diagnosed and resolved hardware and software issues in lab environments, ensuring minimal downtime.
 - Designed and implemented practical systems involving sensors, automation, and real-time data interaction.
 - Managed classroom IT resources including laptops, peripherals, and connectivity tools.
 - Developed structured training materials and guided users (students) on proper system usage and troubleshooting.
 - Introduced foundational concepts of **data handling, system logic, and secure usage of technology systems.**
-

IT Intern — Capesso

April 2021 – August 2022 | Harare

- Troubleshooting issues on remote Linux servers and implementing solutions.
 - Deployment of applications and management of resources on Oracle Cloud.
 - Maintenance and repair work on laptops, desktops, printers and projectors.
 - Assisted customers with basic technical troubleshooting and user guidance.
 - Provided end-user training and support after software updates or system changes.
 - Applied analytical and problem-solving skills to diagnose issues and deliver efficient solutions.
-

Customer Service Intern — Khayalami IT Solutions

January 2018 – December 2019 | Harare

- Responded to customer inquiries across email, chat, and call channels with accuracy and professionalism.
 - Resolved customer issues by identifying needs, providing solutions, and escalating cases when required.
 - Ensured all customer interactions were properly documented and routed through the correct support channels.
 - Performed data entry with precision and maintained accurate records for each customer interaction.
-

EDUCATION

Bachelor of Science in Information Technology

- Chinhoyi University of Technology | 2024

Advanced Level – ZIMSEC

- Prince Edward Shcool | January 2015 – November 2016

Ordinary Level – ZIMSEC

- Prince Edward Shcool | January 2011 – November 2014
-

CERTIFICATIONS

- Data Analytics Essentials (Cisco Networking Academy)
- Artificial Intelligence (Illinois Tech)
- Oracle Cloud Infrastructure Certified Foundations Associate (Oracle University)

- Oracle Cloud Infrastructure Certified Architect Associate (Oracle University)
- Oracle Cloud Infrastructure Certified Developer Associate (Oracle University)

Core Skills

- **Systems & Hardware:** Installation, configuration, maintenance of computers and peripherals
- **Networking:** Basic network setup, troubleshooting, connectivity support
- **Cloud Platforms:** Oracle Cloud Infrastructure (OCI)
- **Programming:** Python, Java, C, JavaScript, PHP, C#
- **Web & Systems:** HTML, Git
- **Data Handling:** ETL processes, structured data management
